Kountry WOOD

CABINETS WORTH OWNING

Thank you for considering Kountry Wood Products for your cabinetry needs.

For 25 years, Kountry Wood has been manufacturing stock kitchen and bathroom cabinetry in Nappanee, Indiana - The Heartland of America. We are a family-owned business that values the heritage of our country.

Our business was founded on the basic philosophy of building a quality product, selling it at a reasonable price and providing excellent customer service.

We take our business seriously by providing American workers jobs in our community and by purchasing material from local suppliers. We are certified by the KCMA Environmental Stewardship Program, and reviewed annually to meet or exceed standards of air quality, product resource management and environmental stewardship to ensure a sustainable product for years to come.

We hope that you find our products to be the right choice for you.

Sincerely,

Ola Yoder
CEO

Cabinet Care

Quality wood cabinet finishes that have been made to last, can, like good clothes, very quickly get a “used” appearance. Good things need looking after if they are to keep their quality. Due to its many properties, wood has always been a popular material for fine cabinetry the world over. Each tree is an individual piece of nature, which, after being felled, keeps its own character in its strength, structure and sensitivity to light and moisture. Wood can also change its character with time.

Moisture is the worst enemy of all wooden furniture, so all spilled liquids should be wiped away at once. Cabinets should be protected against heat, and also against wet or colored objects.

Cabinet surfaces should be cleaned with a very mild soapy solution. The cloth should be soft and dampened with the soap solution. The surface should then be wiped down with a dry cloth to remove excess moisture. Other cleaning compounds exist but may contain alkaline reagents which will adversely affect the surface. Household polishes can be used on an infrequent basis. Products containing silicone are moisture and dirt resistant but may hinder future lacquering.

Wood and Paint Characteristics & Variations

Wood - Naturally occurring variations in wood such as color, grain, mineral streaks and knots are not considered defects.

Color variations are a natural occurrence due to species, age, character of cabinets, and exposure to UV light and sunlight. Such variations and changes are not considered defects. For these reasons, new and/or replacement cabinets may not match display samples and/or existing cabinets.

Warping is the bending or twisting of a part. To measure a door or shelf, lay the product on a flat surface and measure the gap from the surface to the part. The standard allowable tolerance for wood is 1/8" per lineal foot. Materials that fall within specification are considered acceptable, as a part of the natural characteristics of wood.

Paint Finishes - Paint finishes are uniquely different from standard wood finishes. On all wood products, expansion and contraction are typical due to changes in climate conditions. Due to this normal movement, paint finishes may develop slight separation lines, finish breaks and seam lines. These will be most notable at stile, rail and panel joints. Joint separations may become more noticeable over time and through season changes.

With the use of select hardwoods and veneers, some of the grain pattern and wood characteristics (checks & pin knots) as well as seams & joints will remain visible through the paint finish. These are normal and are not considered quality defects.

Seam lines and finish breaks are normal characteristics of paint finishes and should not be considered a reason for product replacement. Over time, there may be a slight color shift, due to exposure to natural and artificial light.

Kountry Wood Products Limited Lifetime and Five-Year Warranty

Kountry Wood cabinets have been manufactured under the highest standards of quality and workmanship.

Lifetime Limited Warranty on Drawer Guides and Hinges

Kountry Wood Products warrants to original consumer purchasers for as long as they own their home that the drawer, drawer guides and hinges used in the manufacture of Kountry Wood Products cabinetry products shall be free from defects in material and workmanship under normal use.

Five Year Limited Warranty on Cabinets

In addition, Kountry Wood Products warrants to original consumer purchasers for a period of five-years from the original date of purchase that all other components of Kountry Wood Products cabinetry shall be free from defects in material and workmanship under normal use.

General Warranty Guidelines

Opaque Finishes are uniquely different from standard wood finishes. On all wood products, expansion and contraction are typical due to changes in climate conditions. Due to this normal movement, Opaque Finishes may develop slight separation lines, finish breaks and seam lines. These will be most notable at stile, rail and panel joints. Joint separations may become more noticeable over time and through season changes. These are normal and are not considered quality defects. Should Kountry Wood Products cabinetry fail during the applicable warranty period due to defects in the material or workmanship under normal use, Kountry Wood Products, at its discretion, will repair or provide the parts necessary to replace the defective products. This warranty does not cover products that are misused, abused, mishandled, improperly installed, improperly stored, changed, modified or subject to extreme temperatures or extreme moisture levels. This warranty is not valid for products used for any purpose other than the purpose for which they were originally intended. This warranty does not cover the cost of installation, removal, subsequent damage or transportation of the defective product, regardless of whether the work was performed by a contractor, service company or the consumer. Variations in color and grain pattern are a natural characteristic of wood. Color changes also may result from exposure to light and other elements that are part of the aging process. These material variations and changes are not covered by this warranty. Kountry Wood Products reserves the right to substitute discontinued product with the most similar product in styling, wood species and color available at the time a claim is submitted.

This warranty is the exclusive warranty of Kountry Wood Products and is in lieu of all other warranties, expressed or implied. In no event shall Kountry Wood Products be liable for consequential, indirect or incidental damages resulting from the installation, use or failure of its product. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights that vary from state to state. To submit a claim under this warranty, contact your nearest Kountry Wood Products dealer or send a letter explaining the defect along with a dated sales receipt as proof of purchase to:
